Chapter 3
Analysis of Policies and Measures Affecting Living

Conditions and Poverty ................................................................. 45
Introduction .............................................................................. 45
Analysis of Macroeconomic Policies and their Effects on Poverty .. 47
Analysis of Sectoral Policies and their Impact on Poverty .......... 51
Approach to the Rapid Assessment of Poverty
Reduction Measures .................................................................. 52
Challenges Faced during the Malian Experience ....................... 55

Chapter 4
Technical Strategic Planning Process to Develop a Poverty
Reduction Strategy ...................................................................... 77
Introduction .............................................................................. 77
Strategic-Planning Process Adopted in Mali to Develop the NPRS .. 77
Synthesis of the Results of the NPRS Planning Process in terms
of Strategic Orientations and Priority Measures in Mali .......... 87
Challenges Faced during the Malian Experience ....................... 96

Chapter 5
Participatory Approach to Developing a Poverty Reduction Strategy ........ 99
Introduction .............................................................................. 99
Participation, Consensus Building, Consultation and Coordination:
Four Necessary Conditions for the Development
and Implementation of a PRS ...................................................... 100
Stages of the Participatory Approach Adopted by Mali ............ 102
Challenges Faced during the Malian Experience ....................... 107

PART II
POVERTY REDUCTION STRATEGY IMPLEMENTATION FRAMEWORK

Chapter 6
The Implementation Process for a Poverty Reduction Strategy .......... 127
Introduction .............................................................................. 127
Objectives and Components of an Action Program
for the PRS Implementation Process ......................................... 127
Component 1: Operationalization of the NPRS ......................... 130
Component 2: Communication of the NPRS .............................. 133

Chapter 7
Technical Stages in Operationalizing the Poverty Reduction Strategy .......... 135
Introduction .............................................................................. 135
Methodological Process for Operationalizing the PRS .............. 135
Setting of Specific Measurable Objectives for PRS Strategic
Orientations and Priority Measures ........................................... 137

-xiv-
TABLE OF CONTENTS

Financial Arbitration Between the SMOs and Internal and External Financial Resources ................................................. 146
Preparation of a Site Inventory of the Main Existing Anti-Poverty Measures .............................................................. 147
Comparison Between the Selected SMOs and the Site Inventory of Ongoing Poverty Reduction Measures to Design a Program of Complementary Measures ........................................... 149
Challenges Faced during the Malian Experience ........................................ 150

Chapter 8
Institutional Mechanisms for Operationalizing a Poverty Reduction Strategy ................................................................. 157
Introduction................................................................................................. 157
Options for an Organizational Framework within which to Implement a PRS................................................................. 158
The Malian Approach ............................................................................. 160
Challenges Faced during the Malian Experience .................................... 162

Chapter 9
Development of a Strategic Communication Plan for a Poverty Reduction Strategy ......................................................... 173
Introduction................................................................................................. 173
Communication and Development ............................................................. 174
The Communication Approach Adopted in Mali for the Formulation of the SCP/NPRS .................................................. 176
Methodology for Developing a Strategic Communication Plan for a PRS....................................................................... 185
Structure of the Strategic Communication Plan of the PRS .................... 188
Challenges Faced during the Malian Experience .................................... 193

PART III
MONITORING AND EVALUATION SYSTEM OF A POVERTY REDUCTION STRATEGY

Chapter 10
Coherent Framework for a Monitoring and Evaluation System of the Poverty Reduction Strategy .................................... 205
Introduction................................................................................................. 205
Framework for Analysing Poverty ................................................................. 206
Choice of PRS Monitoring and Evaluation Indicators ................................. 212
Components of the PRS Monitoring and Evaluation System ....................... 214
Chapter 11
Monitoring of Indicators Related to Population Well-Being ........................................... 221
  Introduction ..................................................................................................................... 221
  The Monitoring System of Indicators related to Population Well-Being ...................... 222
  Indicators of the Level of Income Per Capita and of Economic Growth ....................... 223
  Indicators of Major Macroeconomic Balances ................................................................. 225
  Indicators of the Level of and Access to Physical Capital .............................................. 227
  Indicators of the Level of and Access to Human Capital ............................................... 231
  Indicators of the Level of and Access to Institutional Capital ........................................ 235
  Indicators of the Level of and Access to Financial Capital ............................................ 237
  Indicators of Vulnerability ............................................................................................... 239

Chapter 12
Household Survey System on Poverty ........................................................................... 241
  Introduction ..................................................................................................................... 241
  The Socio-Economic Survey Situation in Mali ............................................................... 242
  Choosing an Operational Criterion for Determining Household Living Conditions ...... 244
  Determining Poverty Lines ............................................................................................. 245
  Classification of Households according to Homogenous Groups ................................ 246
  Poverty Profile Indicators .............................................................................................. 247
  Poverty Characterization Indicators .............................................................................. 252
  Indicators of the Poverty Dynamics .............................................................................. 273
  Household Living Conditions Survey System and Poverty Monitoring ..................... 277

Chapter 13
Implementation-Monitoring Plan for a Poverty Reduction Strategy ................................. 283
  Introduction ..................................................................................................................... 283
  Project Implementation-Monitoring and Sectoral Monitoring ....................................... 283
  PRS Implementation-Monitoring Approach Proposed for Mali ................................... 286
  Challenges to be Met in terms of PRS Implementation Monitoring ............................... 296

Chapter 14
Impact Assessment of a Poverty Reduction Strategy ......................................................... 297
  Introduction ..................................................................................................................... 297
  Choice of Impact Variables ............................................................................................. 299
  Choice of Evaluation Methods ......................................................................................... 303
  Choice of an Impact-Assessment System for Standard PRS Measures ....................... 308
  Challenges to be Met in terms of Impact Assessment ................................................... 310
TABLE OF CONTENTS

List of Tables

Table 2.1 Poverty Lines according to Different Malian Studies .......................... 32
Table 2.2 Classification of the Main Dimensions of Poverty by Area of Residence and Gender ............................................................... 33
Table 2.3 Classification of the Main Causes of Poverty as Perceived by the General Public by Area of Residence and Gender ........ 34
Table 2.4 Division of the Population by Level of Poverty and Contribution of Each Zone to National Poverty (%) ........ 38
Table 2.5 Socio-Economic Characteristics of Households according to their Level of Poverty ................................................................. 40
Table 3.1 Analytical Framework of Macroeconomic Policy Tools with respect to their Impact on Poverty ...................................................... 58
Table 4.1 Example of an Indicative Budget for a Priority Measure .......... 86
Table 7.1 Example of the Establishing of SMOs for Strategic Orientation 3 “To Improve Poor People’s Access to Financial Services and to Other Production Factors” ......................................................... 140
Table 7.2 Example of the Establishing of SMOs for Priority Measure 3 of Strategic Orientation 5: “To Train High-Quality Teachers and Improve their Working Conditions, Pedagogical Methods and Teaching Programs” ........................................................................................................ 140
Table 7.3 Calculation of the Discrepancies between the Starting Level and the SMOs at Different Time Horizons for the Indicator “Proportion of Girls within the Total Number of Admissions to Elementary School” .................................................................................................................. 143
Table 7.4 Example of Estimation of the Budget Needed to Bridge the Gap between the Reference Level and the SMO Levels for Different NPRS Time Horizons according to the Activity-Component Cost Method ................................................................................................. 145
Table 7.5 Comparison between the Estimated Cost of the Priority Measures of Strategic Orientation 2 and the Amount Raised for Ongoing Anti-Poverty Measures in the Kayes Region ................................................................. 149
Table 9.1 Potential and Limitations of Communication Tools .......... 192
Table 11.1 Indicators related to Level of Income per Capita and to Economic Growth .............................................................................. 224
